# ANISH BHARATI

Banepa, Kavrepalanchowk  •  +977-9745610615  •  bharatianish03@gmail.om

Github

## SUMMARY

Skilled in MERN stack, Next.js, and MySQL. Familiar with Playwright for test automation, including basic test cases. Strong problem-solving abilities, focused on delivering scalable, high-quality solutions and ensuring successful project outcomes.

## PROJECTS

**School Web Development (Nalanda Vidhya Mandir)** ( Link )

- Developed a school management web app using MERN and Next.js with smart scheduling and secure login for admin panel.
- Improved backend efficiency using Supabase, ensuring smooth real-time operations.

**Gamification Quiz** ( Link )

- Developed a gamified quiz web platform using MERN and Next.js with interactive questions, real-time scoring, and a user-friendly design.
- Implemented a points-based reward system, allowing users to unlock avatars and virtual items, boosting engagement and motivation.

**Taskify, Task Manager** ( Link )

- Built a task manager web platform using MERN and Next.js, featuring a Kanban board layout for intuitive task visualization and management.
- Included organizational tools like calendar updates, member assignment, and task delegation from an admin view for streamlined team coordination.

## EDUCATION

**B.Sc. in Computer Science**                                                                  **2021 - Present**
Kathmandu University, Dhulikhel, Kavrepalanchowk

**+2**                                                                                                          **2019 - 2021**
CCRC, Balkumari, Lalitpur

**SEE**                                                                                                                **2019**
Nalanda Vidhya Mandir, Sanothimi, Bhaktapur

## ADDITIONAL INFORMATION

- **Programming:** React, Next.js, Node.js, Express, MongoDB, MySQL, TypeScript, Playwright
- **Version Control:** Git, GitHub
- **Methodologies:** Best practices in Agile Development
- **Problem Solving:** Strong analytical and debugging skills for scalable solutions
- **Languages:** Fluent in English and Nepali
